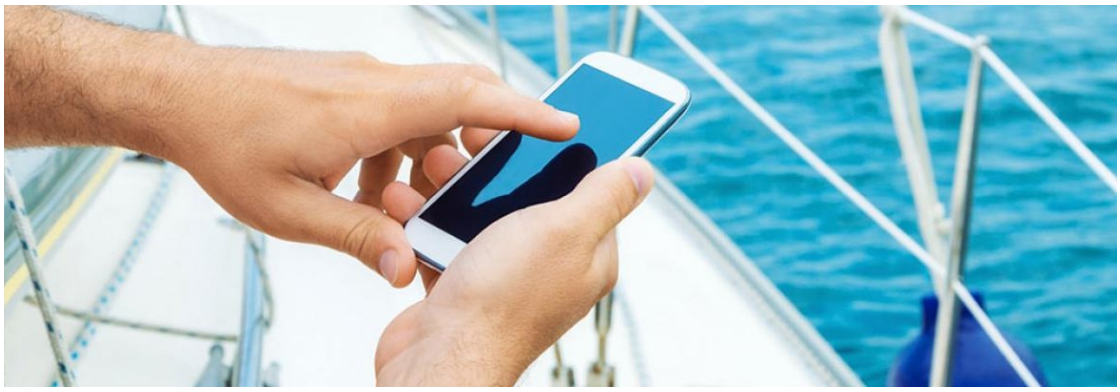
New Innovative Mobile Solution for Crewing

We are proud to present our new **CloudOMEGA**.

Our comprehensive add-on to your existing OMEGA EndeavourXE version. A mobile version optimized for all Smartphones, Tablet PC's and iPads designed to give you a part of the OMEGA Database literally in your hands.



www.CloudOMEGA.Net

It serves as a tool for the Manning department to monitor various activities for crew and vessels.

Joining details, crew details, crew certificate, sea service, crew and vessel planning, course planning, crew appraisal, crew lists, agent details, payroll info, rest-hour analyzer, work-hour analyzer, To-Do info, calendar function as well as direct links to email, SMS, WhatsApp, and Viber.

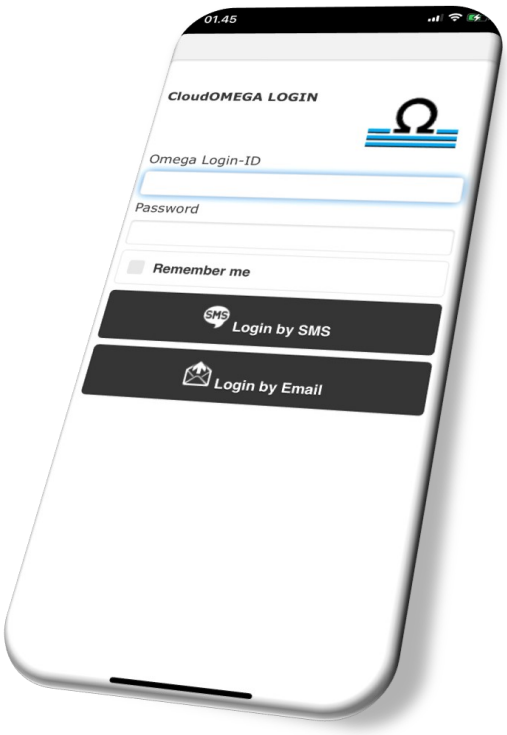
CloudOMEGA is synchronized with OMEGA on a scheduled daily basis.
CloudOMEGA is designed for 'take-away' and to fit into your pocket.
CloudOMEGA comes with a standard version but can be customized to suit your company requirements.
CloudOMEGA only needs an internet connection as all data in the Cloud.

Key words for CloudOMEGA:

- Very easy to use
- Full control of user rights to CloudOMEGA via the control panel in OMEGA
- Secure access via 2-factor authentification for each logon
- Works on all mobile phones, ipads and computers
- View mode, Edit mode, Print mode
- SSL via EncodeBase64 encrypted– and password protected data

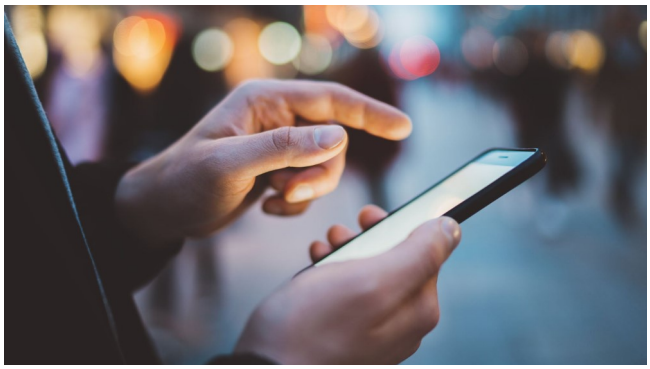
New Innovative Mobile Solution for Crewing

Logon procedure for CloudOMEGA

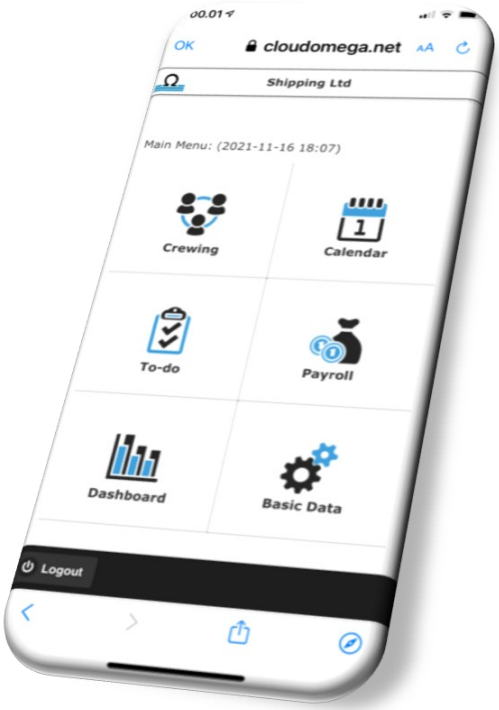


The access to **CloudOMEGA** is via the credentials as in OMEGA. During the login process, a One-Time-Password (OTP) ensures a secure 2-factor verification step on each logon attempt. The OTP password to be delivered via SMS or email.

With CloudOMEGA you own all your crew data, and data can easily fit into your pocket. CloudOMEGA is designed to look nice on any iPhone, iPad, or an Android smartphone. Everything is in the cloud, and only an internet connection is required.



Main Menu



CloudOMEGA's **Main Menu** is very user friendly and intuitive and gives the crewing department a variety of options, and can be different from company to company.

The basic icons all point to various submenus. This way we have made sure all OMEGA's information is kept in place and accessible from the mobile app CloudOMEGA.

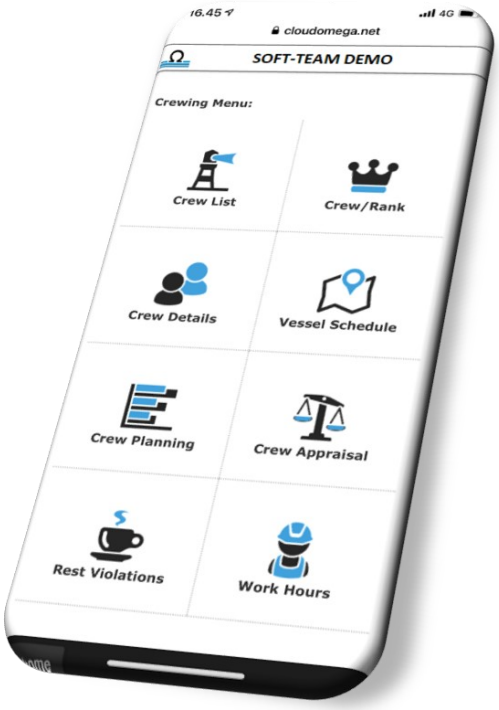
CloudOMEGA standard version includes:

- Cloud Crewing
- Cloud Vessel Administration
- Cloud Dashboards
- Cloud Analyzers
- Cloud Reports
- Cloud Basics

Use the calendar function on your mobile phone to keep track of important dates and crew changes. This will ensure you don't miss any important vessel visit or crew change info.

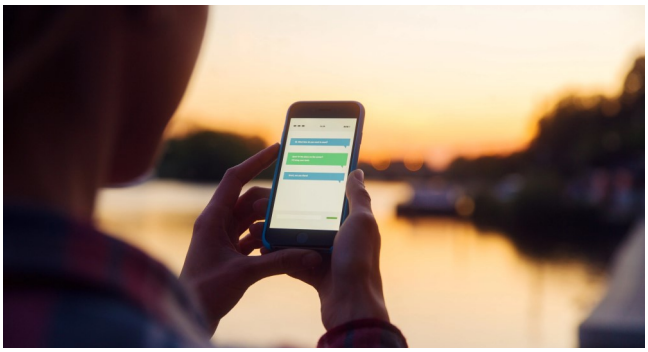
New Innovative Mobile Solution for Crewing

Crewing Menu

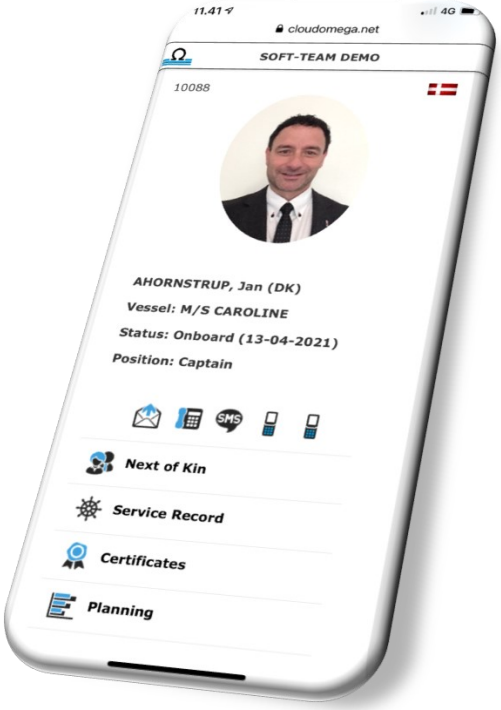


The **Crewing Menu** has been designed to match what you see in OMEGA and all data is more or less live (depending of how often you decide to synchronize the systems).

Crew List - who is onboard
Crew/Rank - crew information sorted by ranks
Crew Details - search for a crew and get details
Vessel Schedule - port of calls per country/port
Crew Planning - shows the crew planning per vessel
Crew Appraisal - view appraisals
Rest Violations - Rest Hour violations and deviations
Work Hours - Work Hours calculations



Crew Details

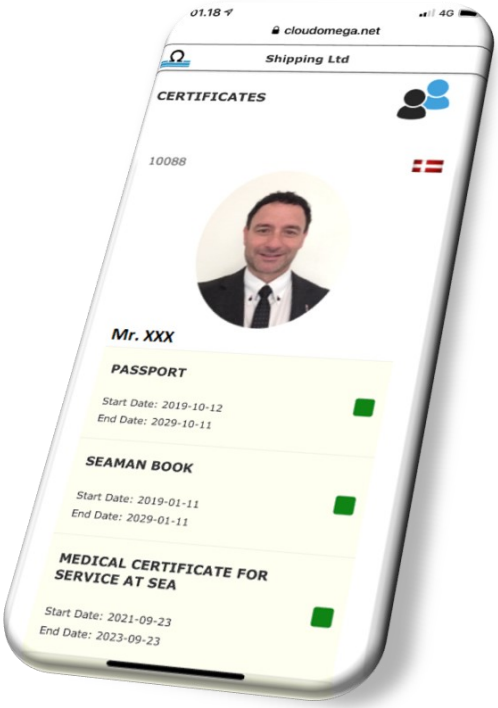


The **Crew Details** in OMEGA contains a large informative database for each crew member and those to be reflected in CloudOMEGA as well:

- Personal Basic Data
- Crew Documents, Passport, Visa, Seamans Book
- Crew Certificates
- Next of Kin Information
- Courses and Certificates
- Sailing History and Sea Service
- Evaluations and Appraisal Forms
- Crew Lists
- Planning Information

New Innovative Mobile Solution for Crewing

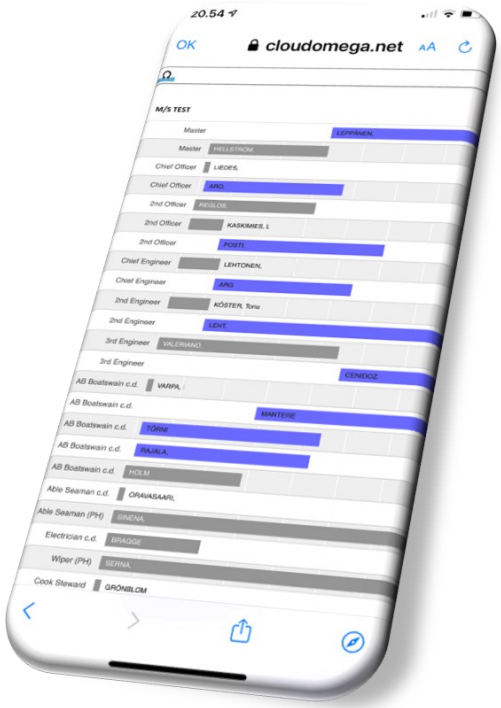
Crew Certificates



The **Certificate Module** contain routines for administration of each crew member's certificates and courses.

A simple color-coding show the user what certificates are due to expire or has expired. Alerts can be configured to popup whenever needed, and scanned documents can be forwarded to another person or sent via email.

Crew Planning

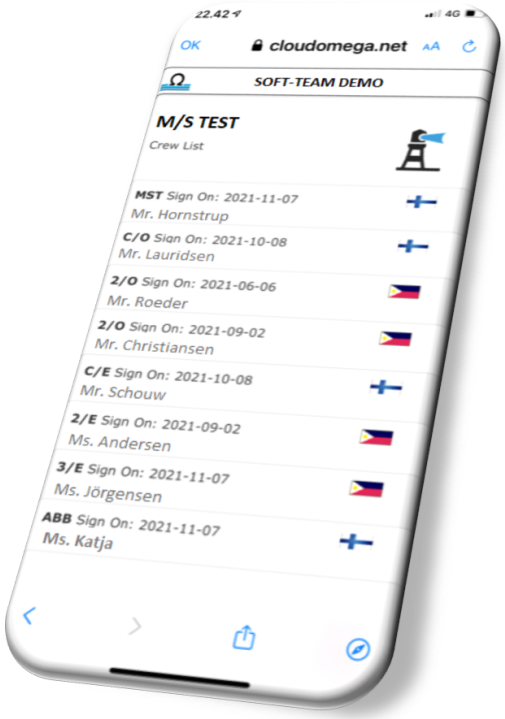


The Crew **Planning Module** allows long term planning based on each ship's Manning setup including information on service days (on board days), vacation, courses, travel days etc.

The graphic view can be presented in different ways and easily adjusted, compressed, zoomed and flipped between horizontal and vertical view. This gives the user an optimal overview of the entire fleet.

New Innovative Mobile Solution for Crewing

Crew Lists



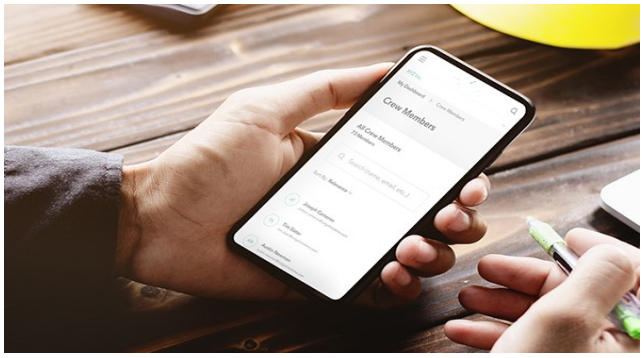
The **Crew List** module presents the current crew lists in various formats.

From the compressed basic crew lists to advanced crew lists incl. photo and all related crew details. Small features such as crew's nationality are also show on the screen.

Vessel Schedule

Vessel Schedule presents the vessels' schedules one by one.

Vessel schedule also consists of ETA, ETD as well as arrival and departure port. Or you can search for which vessel will arrive in which country or port by using a drop down lists.
An easy overview and only a few selections before you receive the desired data.



New Innovative Mobile Solution for Crewing

Various Dashboards

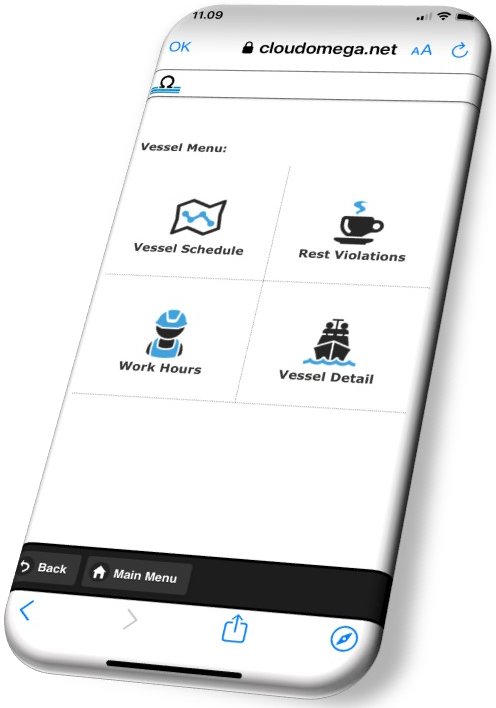
Various dashboards have been designed to gain a quick graphic overview. CloudOMEGA comes with Standard dashboards as well as you can have your Personalized Dashboards.

Standard dashboards include:

- Male/female onboard
- Crew per nationality onboard
- Crew per vessel onboard
- Crew per rank onboard
- Age profile for Officers
- Age profile for Ratings
- Rest violation

The Dashboards will mainly supply you with the numbers, and crew names will not be visible here.

Vessel Menu



Under **Vessel Menu** you can find Vessel Schedule, Rest Violation, Work Hours as well as Vessel Details.

The Rest Hour Violations/Deviations can be sorted and selected either by vessel, period, crew, or violation reason.

The Working Hours can be sorted and selected by vessel, period, crew, or work code.

The Vessel Details holds all contact details for each vessel.
